How does this year deliver your curriculum intent?		Student investment in English is secured through studying a range of texts, including a 20th century British novel, a range of Greek and Norse myths and a Shakespearean tragedy. Alongside these core texts, students' study of English is complemented by a range of illuminating texts, including poetry, fiction and non-fiction extracts, which develop the knowledge and skills students require to become successful, instinctive and invested readers and writers.				What does the end of year assessment look like?		Students will complete an unaided transactional writing assessment for 60 minutes, which will assess their writing knowledge and skills. This will be assessed using comparative judgement against a national data set through No More Marking, which will calculate a writing age and standardised score for each student.
