

**THE HIGHEST
STANDARDS**

Always set and deliver
the highest standards:
never settle for less.

**INVEST TO
ACHIEVE**

Care about the now;
create the very best for
your future.

**EVERYONE IS
VALUED**

We are unique
individuals working
together to be the best.

**NO
EXCUSES**

Create solutions,
not excuses.

**NEVER
GIVE UP**

Resilience is essential;
self-belief drives
improvement.

**CULTIVATE YOUR
CHARACTER**

Qualifications open
doors; your character
gets you through them.

8T5

Half Term 1	Week 0	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8
		Food 2 - Multicultural Cuisine	Italy - Pizza Practical	Special Diets	America - Burgers Practical	Environmental Impact and Sustainability	India - Curry Practical	Food Security	Australia - Anzac Biscuits Practical

	Pencil tones	Pattern	Colour Theory	Facial features	Celebrity portrait	3D Sugar skull	3D Sugar skull		
How does this year deliver your curriculum intent?	The curriculum on Technology and Art at Y8 builds and extends the skills learnt during Y7 – students learn about a wider range of techniques, equipment and processes which are used to make products or create pieces of work. Teachers will assess missed learning during practical activities and ensure that gaps in knowledge are addressed throughout Y8 projects. This careful instruction and coaching allows students to work with greater independence as they move through their technical and creative education acquiring knowledge, understanding and skills which allow them to make informed decisions about equipment, materials or ingredients and the way they work.				What does the end of year assessment look like?	During each art/tech rotation, students will be assessed against practical and theoretical criteria. Practical assessments will take place during practical lessons, through teacher observations against criteria which focuses on skill application and quality of final pieces. Theoretical assessments will be assessed towards the end of each rotation in a short written assessment which focuses on knowledge and understanding of theoretical topics covered.
